UNIVERSITY OF CALIFORNIA

COLLEGE STUDENT INTERVIEW

By Kalee Byrd

When visiting UC Berkeley during the AVID Junior overnighter, we got a beautiful tour of the campus and some students got the opportunity to go in the UC tower. While in the tower Kalee Byrd and Camryn Ojeda interviewed a Berkeley student, Yme Yoshioka while going up the elevator to the top of the tower. She said that she was a junior, is majoring in public health, and she absolutely loves her school. Yme bragged about how she loves the weather there and how excellent the academic

environment is. She told us the reason why she wanted to go there was to follow in her sister's steps. What the most interesting thing about Yme was is that she came from Japan to Berkeley and it was such a culture shock to her. She was such a positive character and enjoyed the interview we gave her.

FACTS ABOUT UC BERKELEY

By Christian Reyes

Top 3 majors: Social Sciences, Bio, Engineering

Average GPA: 3.75

Average SAT Scores: Critical reading: 670/ Math: 705

Acceptance rate: 15%

WHAT THE COLLEGE WAS LIKE

By Nicholas Harper

UC Berkeley was an amazing college to visit. The weather felt great, the campus is absolutely beautiful, and there was so much to do there between the historic library, to the gym, to the view of the Golden Gate Bridge, it should definitely be a consideration for all high school students when applying to college. Especially looking at how great the diversity is among the campus.
